DANIEL HUERTA ROMERO

Content Designer / UX Writer | Content Strategist | User-Centered Design | Digital Copywriting

Mexico City | dann1057@gmail.com | +52 55 2654 2934 | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Content Designer and UX Writer with a proven track record of turning complex regulatory, legal, and technical language into clear, human-centered digital content. Over 10 years of experience producing structured, audience-first written content across institutional, editorial, and advertising contexts — including digital copywriting at an advertising agency and editorial content strategy for digital platforms. Published UX researcher with an original usability study on human-AI interaction and content-driven friction analysis. Experienced in content quality review, editorial standards enforcement, and cross-functional documentation. Proficient in Adobe Photoshop and Premiere Pro; basic Adobe Illustrator; actively training in Figma and UX/UI design (EBAC, 2026–2028). Fluent in AI-assisted content workflows. Certified in UX Writing & Interface Strategy and Google UX Design Process. English C2 / Spanish Native — impeccable written command in both languages.

CORE COMPETENCIES

Content Design • UX Writing • Content Strategy • Microcopy • Voice & Tone • Style Guides • User-Centered Design • Usability Testing • User Interface Design • Information Architecture • User Journeys • Accessibility Standards (WCAG) • Inclusive Design • Digital Copywriting • Content Localization • Simplifying Legal & Regulatory Language • Editorial Quality Review • Artificial Intelligence Tools • Jira • Design Thinking • Adobe Photoshop • Adobe Premiere Pro • Adobe Illustrator • Figma (in training) • HTML / CSS • Agile / Scrum

UX RESEARCH — PEER-REVIEWED PUBLICATION

"Cognitive Friction and Critical Agency in Hybrid Human-AI Workflows: A Usability Evaluation of x-Plica"

Revista Entretejidos | ICONOS, Instituto de Investigación en Comunicación y Cultura | 2026 | View publication

- Designed and executed an original usability study (N=9) evaluating how interface copy, instructional language, and content structure affected user comprehension, task completion, and trust in a human-AI tool.
- Diagnosed that ambiguous microcopy and unclear onboarding content drove a 55.6% dropout rate — and produced concrete rewriting recommendations to reduce friction and improve user flow.
- Communicated findings in structured academic documentation for Legal, Design, and Product audiences — demonstrating the cross-functional content communication HSBC requires.

PROFESSIONAL EXPERIENCE

UX Writer / Content Editor | Arata Latam | Remote

January 2023 – Present

- Design and write user-centered digital content for gaming, streaming, and entertainment platforms — applying content design principles: clarity, scannability, consistent voice and tone, and audience-first language across high-volume publishing cycles.
- Adapt complex technical and industry information into accessible, conversational content for diverse Spanish-speaking markets, maintaining brand voice and accessibility standards across localized versions.
- Manage content taxonomy, metadata structure, and information architecture to ensure discoverability and editorial consistency across the platform.
- Integrate AI tools throughout the content production cycle — synthesis, drafting, and editorial review — improving consistency, speed, and quality of output.

Content Quality Editor | Simply.TV | Mexico

January 2026 – June 2026

- Reviewed descriptive content — titles, descriptions, classifications, and editorial metadata — for accuracy, consistency, completeness, and platform discoverability across a large-scale streaming catalog.

• Identified content inconsistencies and applied corrective editorial actions, ensuring every record met structural, tonal, and platform standards before publication — hands-on content governance in a live digital product environment.

Digital Copywriter / Community Manager | Archer Troy Advertising Agency | Mexico City
2014 – 2015

• Wrote audience-centered digital copy for brand campaigns and social media, adapting voice, tone, and messaging strategy to fit different brand guidelines and audience profiles.

• Translated audience behavior data and engagement metrics into content strategy recommendations — grounding copy decisions in real user insight.

• Managed content planning, publishing workflows, and performance review under deadline pressure in a fast-paced creative agency environment.

Head of Department – Content Monitoring & Analysis | Federal Telecommunications Institute (IFT) | Mexico City
January 2015 – September 2025

• Translated complex regulatory frameworks and legal compliance criteria into clear, structured documentation for legal, technical, and institutional audiences — the operational equivalent of making financial and legal content human at HSBC.

• Built and maintained style guides, content standards, and editorial process documentation to ensure voice consistency and compliance across high-volume institutional workflows.

• Delivered strategic reports and complex findings to multidisciplinary stakeholders, calibrating language, depth, and framing to each audience — from legal counsel to operational teams.

• Coordinated content review and approval workflows across departments, balancing compliance requirements with communication clarity under deadline pressure.

Video Game Tester | Lionbridge Games | Mexico City
June 2026 – Present

• Evaluate interface microcopy, error messages, onboarding flows, and instructional content against UX specifications — identifying language gaps that affect user comprehension, flow, and experience quality.

• Produce structured written bug reports and content feedback in Jira, combining precision documentation with clear editorial judgment across iterative release cycles.

EDUCATION & ONGOING TRAINING

UX/UI Designer Certification (In Progress)
Escuela Británica de Artes Creativas (EBAC) | 2026 – 2028

• 40-module program. Key modules for this role: UX writing & voice/tone, information architecture, usability testing, user interface design, design systems, Figma, Adobe Photoshop, AI tools for UX, prototyping, accessibility standards, and continuous improvement.

Master's Degree – Communication and Media Studies
ICONOS, Instituto de Investigación en Comunicación y Cultura | 2022 – 2025

• Graduate research in digital media, human-AI interaction, and user behavior. Coursework in HTML/CSS and backend fundamentals. Thesis formed the basis of the published UX and content usability study.

Bachelor's Degree – Communication and Multimedia
Universidad Simón Bolívar | 2006 – 2010
