

DANIEL HUERTA ROMERO

UX/UI Analyst | User Research | Wireframing & Prototyping | Web & Digital Interfaces

Mexico City | dann1057@gmail.com | +52 55 2654 2934 | [Linkedin](#) | [Figma](#)

PROFESSIONAL SUMMARY

UX/UI professional with applied usability research experience, published academic work on human-AI interaction, and formal training in user-centered design, wireframing, prototyping, and information architecture. Background in HTML/CSS, 10+ years of structured data analysis, and strong cross-functional communication skills. Currently completing a professional UX/UI certification (EBAC, 2026–2028). Certified in Google UX Design Process and UX Writing. English C2 / Spanish Native.

CORE COMPETENCIES

UX Research & Usability Testing • Heuristic Evaluation (Nielsen) • Wireframing & Prototyping • Information Architecture • User Journeys & Personas • Design Thinking • Lean UX • UX Writing • HTML / CSS • Design Systems • Responsive / Mobile-First Design • WCAG Accessibility • Agile / Scrum • Data Analysis & Reporting • Cross-functional Collaboration

UX RESEARCH — PEER-REVIEWED PUBLICATION

"Fricción cognitiva y agencia crítica en flujos híbridos humano-IA: evaluación de usabilidad de x-Plica"

Revista Entretejidos | ICONOS, Instituto de Investigación en Comunicación y Cultura | 2026

- Designed and executed an original usability study (N=9) applying an adaptation of Nielsen's 10 heuristics to a hybrid human-AI interface, including participant recruitment, task design, observation protocol, and qualitative data analysis.
- Identified two friction typologies with opposing UX impact — unintended operational friction (55.6% dropout rate) vs. deliberate cognitive friction (strengthening user agency) — and produced actionable design recommendations.
- Evaluated AI-generated interface components for usability, comprehension, accessibility, and user trust.

PROFESSIONAL EXPERIENCE

Video Game Tester | Lionbridge Games | Mexico City

June 2026 – Present

- Evaluate digital interfaces against functional and UX specifications, identifying usability issues, friction points, and experience gaps across iterative development cycles.
- Document findings with precision and provide structured feedback to product and design teams, including regression validation after fixes.
- Deliver constructive assessments of user experience, interaction flow, and interface quality under deadline pressure.

Content Editor / Digital Entertainment Journalist | Arata Latam | Remote

January 2023 – Present

- Apply UX writing principles, content taxonomy, and audience-centered communication to high-volume digital publishing across gaming, streaming, and entertainment platforms.
- Analyze digital product interfaces and experiences from a user perspective, translating complex findings into clear, structured content for diverse audiences.

Head of Department – Audiovisual Content Monitoring & Analysis | Federal Telecommunications Institute (IFT) | Mexico City

January 2015 – September 2025

- Led systematic evaluation initiatives across large content datasets, applying structured methodologies, style guides, and quality standards — maintaining consistency across high-volume analytical workflows.

- Produced evidence-based reports and presented complex findings to legal, technical, and institutional stakeholders, managing multiple deliverables and cross-functional coordination simultaneously.
- Developed and maintained process documentation and evaluation frameworks to ensure repeatability and traceability across team outputs.

EDUCATION & ONGOING TRAINING

UX/UI Designer Certification (In Progress)

Escuela Británica de Artes Creativas (EBAC) | 2026 – 2028

- 40-module program covering: wireframing & prototyping (mid and high fidelity), information architecture, usability testing, design systems, UI visual design, Figma, UX writing, AI tools for UX, and continuous improvement.

Master's Degree – Communication and Media Studies

ICONOS, Instituto de Investigación en Comunicación y Cultura | 2022 – 2025

- Included frontend development coursework (HTML, CSS) and backend fundamentals, alongside research in digital media, human-AI interaction, and user behavior.

Bachelor's Degree – Communication and Multimedia

Universidad Simón Bolívar | 2006 – 2010

CERTIFICATIONS

UX & Design

- Start the UX Design Process: Empathize, Define, and Ideate – Google / Coursera | Sept. 2026
- Writing is Designing: UX Content & Interface Strategy – Packt / Coursera | Aug. 2026
- Enterprise Design Thinking Practitioner – IBM

Project Management

- Project Initiation: Starting a Successful Project – Google / Coursera | Dec. 2025
- Foundations of Project Management – Google / Coursera | Dec. 2025

Data & Business Intelligence

- Power BI – Santander Open Academy | Jan. 2025

TECHNICAL SKILLS & TOOLS

- UX Design & Research: Wireframing, prototyping (mid/high fidelity), IA, user journeys, personas, usability testing, heuristic evaluation, UX writing
- Design Tools: Figma (in training – EBAC), Photoshop (EBAC), InVision / prototyping tools (basic)
- Frontend: HTML / CSS (basic–intermediate); responsive and mobile-first design principles
- Methodologies: Design Thinking, Lean UX, Agile/Scrum, user-centered design, WCAG accessibility principles
- AI Tools: Claude, ChatGPT, NotebookLM — integrated into research, synthesis, and documentation workflows
- Data & BI: Power BI, data validation, structured reporting, pattern analysis
- Productivity: Google Workspace, Microsoft Office, WordPress

LANGUAGES

- Spanish: Native
- English: C2 – Full Professional Proficiency
